

**City of Biggs**  
**Agenda Item for the**  
**next regular City Council Meeting**  
**Sept 11, 2012, 6:30 pm**

**To: Honorable Mayor  
And Members of the City Council**

**Date: Sept 7, 2012**

**From: Steve Speights, PE – City Engineer**

**Subject: Monthly Activity Report**

---

**6<sup>th</sup> Street Bridge**

The Caltrans authorization for R/W and Utility Relocation has recently been received. A Task Order to authorize that work plus the environmental permitting will be on the October council agenda. Construction is planned for next summer.

**Wastewater Treatment Plant**

Hearing for our permit renewal is scheduled for the quarterly Board meeting October 4<sup>th</sup> in Sacramento. Bennett will have someone there to represent the City.

**Sunwest Phase 2**

Work on the warehouse building is progressing.

**Street Repair Priorities**

The Public Works Committee discussed the best process and decided that a workshop either before or as part of a future council meeting would give the best opportunity for public input for the council. This needs to be scheduled.
