Agenda Item Staff Report For the Council Meeting: July 11, 2017

TO: Honorable Mayor and Members of the City Council

FROM: City Administrator

SUBJECT: Discussion of Maintenance of the Future Waste Water Application Site.

Please find attached general depiction of the area that will be tilled to further minimize fire danger at the site, to control weed and vegetation accumulations and to improve site access for the coming construction cycle.

There are environmental constraints on site that we must avoid, as well as some physical constraints and obstacles that must be avoided. The attached map roughly shows the area that we expect to till during the week of July 10, 2017.

Mark Sorensen, City Administrator
