

City of Biggs

Agenda Item Staff Report For the Regular City Council Meeting: February 12, 2019

TO: Honorable Mayor and Members of the City Council
FROM: City Administrator
SUBJECT: Update and Maintenance of the City Council Chambers

Council is asked to consider the concept of an update and maintenance of the City Council Chambers.

Background

The current City Council Chambers building at 3016 Sixth Street was acquired by the City of Biggs in 1994. The prior use appears to have been a bakery or restaurant, and sometime prior to that the site served as the post office.

In 1995 the City prepared a plan for demolition of some internal walls and the construction of internal walls to create the current floor plan. County records indicate that permit B95-1622 was issued on 07/17/1995 for the remodel and that the permit was finalized on 10/04/1995. County records indicate that the HVAC unit and roof were replaced in 2008.

Staff will provide a presentation of one internal wall reconfiguration concept, and a list of maintenance and update items for consideration.

Recommendation: Direct Staff

Mark Sorensen, City Administrator
